

I am thrilled with Wisconsin's "no call list" regulations. I do not want us, in Wisconsin, to have to adhere to the less strict federal guidelines. If I want to purchase something I will make the initial contact. I have never, nor will I ever purchase something from a person who contacted me blindly with a phone call. They are intrusive to family life, peace, and serenity. If people enjoy getting phone calls about products they will simply not sign up for the "no call list."

Thank you.
